

Corrugate Capabilities

With strategically located manufacturing facilities, Richardson is expertly positioned to service our customers nationwide. Our centrally located facility has full design and structural engineering teams complete with CAD-software so that we can provide prototypes, 3-D mockups and renderings as needed, prior to the full production run. In addition, our strategic alliances allow us to capitalize on global supply chain efficiencies, should our clients request overseas manufacturing. Whether domestic or overseas, Richardson offers turnkey solutions – complete from design through manufacturing and delivery – including assembly and pack-out services if needed.
